Max and the 500cc Norton International

MAX Taylor dropped these great pictures around of himself and his 500cc Norton International. Pictured below is Max just after he bought the Norton from "Boyes" in Hay Street, Perth. The bottom picture is the Norton at the old airstrip in Mooliabeenee, taken in about 1954. About 1951 the motorcycle races started and some of the competitors would camp next to the airstrip in the bush the night before, look closely and you can see tent, trucks and cars behind the

bike.
Above is a picture of Max at the Mooliabeenee Airstrip in full racing leathers and helmet. The bike cost him 300 pound and he said he gave up "Beer and Cigarettes" and everything else to buy it. When it was paid for he returned to the above - very quickly. Thanks Max for sending in the pics - brilliant.
